REVIEW ON HINO L6

We operate six Hino L6 trucks for our produce distribution company on Cape Cod. Running seven days a week means there's no room for downtime, and these trucks have consistently delivered. The Hino L6 has proven to be exceptionally durable, with zero interruptions to our operations.

Because the L6 falls within the non-CDL weight class, we've been able to hire from a wider pool of drivers, which has been a major advantage. Our team appreciates the engine power, the ease of maneuverability, and the overall comfort of the cab.

Overall, the Hino L6 has been a reliable and efficient asset to our fleet.
